Bring completed, in pencil,
to our 7-9pm meeting
@WS Senior Center.*

2013 Application: Green Project Incubation Grant

SWS Mission: Sustainable West Seattle educates, creates and advocates for urban sustainability in our local community...

Purpose of the Eco Innovation Incubation Grants: The aim of this annual grant is to fund small projects, the product of creative and innovative thinking in our community, that promote sustainability and resilience in the West Seattle Neighborhood. This grant generously funded for \$1000 in 2013 by the CoHo Team of Windermere Agents.

Name(s) of applicant: _____

Time (the applicant) intends to commit to the project: _____

Your desired role on this project (Leader, Contributor, Advisor?): _____

Project title: _____

Brief Project Description:

Estimated Funding Needs. What will the money of this grant be spent on? Do you see using only the money from this grant on the project, or do you foresee pursuing other funds (such as Seattle DON grants)?

Durability & Feasibility: How long would the project last? Would it have ongoing material, monetary, or volunteer needs? What would be the hurdles for success for the project (volunteer interest, city regulations, coordination with other organizations, etc.)

Educational Possibilities; How does/will this project communicate sustainability to our community? What are the educational goals/components of this project?

Sustainability; How would this project affect sustainability and/ or the resilience of our neighborhood?

Locality; What part of our local community does this project involve, support and improve? How?

Community; How would or can this project build community? How would it be supported by the community?

Other Comments (optional):

Are there any **web resources** that detail the success of project like yours that you can share?:
